				COMM	203

* Students are responsible to insure that they meet the University Core Curriculum requirements outlined in their respective catalog number.

** To understand the major cultures of the world as expressed in art, philosophy, politics or economy, it is necessary to know and appreciate languages other than one's native language. Therefore some proficiency in a foreign language is also required to graduate from Texas A&M University. This requirement can be met by: 1) Completing two units (two full years) of high school course work in the same foreign language. 2) Demonstrating proficiency in a foreign language by examination or 3) Completing one year of course work at the college level in the same foreign language.

*** International and Cultural Diversity Acceptable courses are listed in the TAMU Undergraduate Catalog 2010-2011.
